**Deborah Fell-Carlson : Working Safely in Health Care: A Practical Guide (Safety and Regulatory for Health Science)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Working Safely in Health Care: A Practical Guide (Safety and Regulatory for Health Science):

0 of 0 people found the following review helpful. It's OKBy Coast Guard City CVXGave me some information about Respiratory Fit testing, which was the only thing I was after. Could expand that section to make it more useful.0 of 0 people found the following review helpful. A good addition to your libraryBy O. K. MaharajI got this for someone doing their MHA. According to her, the information is clear, concise and uses good examples. It is a good addition to one's library since it covers many concepts and theories well and its application to real life situations.

Finally, a comprehensive resource on workplace safety designed with the health care worker in mind! This book will

show you how to protect yourself and others from injury while on the job. You will be introduced to stresses and hazards unique to the health care environment, and provided with practical steps you can take to make work safer for you. If you know how to make work safer for yourself, you will be better equipped to provide a safe care environment for your clients.

Section I: Laying the Foundation Chapter 1: Caring for the Caregiver - A Fresh Approach to Health Care Safety Chapter 2: Understanding Hazards and Controls in Health Care Section II: Hazards and Controls in Health Care Part 1: Preventing Musculoskeletal Injuries in Health Care Chapter 3: Performing Clinical Support Tasks Safely Chapter 4: Safe Client Movement and Handling Chapter 5: Preventing Slips, Trips, and Falls in the Healthcare Environment Part 2: Chemical Safety and Airborne Exposures Chapter 6: Working Safely with Drugs and Other Substances Chapter 7: Indoor Air Quality in Health Care - Good Air for Good Health

About the Author Deborah Fell-Carlson has had an active and visible leadership role in strategic efforts to transfer evidence-based injury prevention knowledge to the Oregon healthcare community. She has served in a variety of safety and health leadership roles in healthcare and general industry over the past 30 years, as well as in a variety of nursing and nursing education roles. She received her Bachelor of Science in Nursing from South Dakota State University and her Master of Science in Public Health through Oregon State University. Ms. Fell-Carlson is a past Board Member of the Oregon State Association of Occupational Health Nurses chapter of the American Association of Occupational Health Nurses, a current member of the Oregon State Association of Occupational Health Nurses, the American Society of Safety Engineers, and the Association for Occupational Health Professionals in Healthcare. She is co-chair of the Oregon Coalition for Healthcare Ergonomics, a multidisciplinary task force charged to develop strategies to reduce musculoskeletal injuries in healthcare in Oregon. She served in the Army National Guard in South Dakota and Oregon for a total of 27 years and retired as an Army Nurse Corps Lieutenant Colonel in 2003. She has presented on a variety of employee safety and health issues at conferences at the state and national level.
