Gwen Lancaster, Lesley Pope : Working with Children's Phonology (Working with Series) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Working with Children's Phonology (Working with Series):

This manual provides creative ideas and activities on phonology. It examines advances in analysis and description of phonological disorders and describes their management in the clinic.

"Provides a wonderful resource for Speech Therapists who need new, fresh and exciting ideas to provide meaningful treatment for children's speech disorders..." ICAN NewsletterAbout the AuthorGwen Lancaster Lesley Flynn (ne Pope) qualified from Leicester Polytechnic in 1981 and 1984 respectively. They worked together in Bristol and this book arose from their clinical interest in children with speech disorders. Lesley then worked in Newcastle, where she continued her innovative practices. She sadly died in 1992, but this book and its companion volume 'Working with Children's Phonology Sourcebook' are a fitting tribute to a talented therapist. Gwen taught speech and language therapy students at City University for ten years and is now employed by North Bristol NHS Trust with a paediatric caseload.
