**St. John's Ambulance : Young Peoples First Aid, 2e** before purchasing it in order to gage whether or not it would be worth my time, and all praised Young Peoples First Aid, 2e:

This book provides an ideal introductory guide to first aid. It is aimed at the 10-15 year age group, but is excellent reading no matter how old you are! The principles of first aid are displayed in a clear and logical format, making it an easy-to-follow guide. Quick reference tools such as the Handy Hints and Do's and Don'ts are included throughout the book, highlighting the important pieces of information. By using full colour illustrations, diagrams and real life photographs, the text comes to life. This makes learning more fun and should entice the child to read and understand

the basic principles of first aid. An undeniably essential learning aid and reference tool for any youth organisation.
