Orlando R. Barone and Cari M. Tellis : Your Voice Is Your Business before purchasing it in order to gage whether or not it would be worth my time, and all praised Your Voice Is Your Business:

0 of 0 people found the following review helpful. Everyone who speaks needs this bookBy Susan H. deGrandpreIf you speak, you need this book and CD. The authors take you from the physiology of what using your voice is, through how to use it, through how to combine voice with persuasive presentations. The CD shows the authors working with actual voice students. I speak for a living, and "Your Voice Is Your Business" has transformed how I use my voice to make the impressions I want to.

Your Voice Is Your Business combines the latest in voice research and technology with the most powerful and state-of-the-art presentation skills and methods. The result is an integrated and comprehensive approach to connecting the technically-based aspects of voice production with an applied, skill-based grasp of interpersonal effectiveness. The book will serve as both a practical handbook and a fully realized resource on human vocal production in real world settings. Relevant techniques of positioning, gesture, and paraverbals (non-verbals) are incorporated in the study of successful voice presentation. An accompanying DVD illustrates the concepts and corrective measures in an incisive and powerful way. Readers will find references to relevant scenes in the DVD throughout the text. The DVD allows readers to review and practice elements being discussed.

About the Author Orlando Barone Educator, lecturer, trainer, and author Orlando R. Barone has for almost thirty years designed, developed, and delivered internationally acclaimed training in self-presentation and interpersonal effectiveness. His clients include organizations as diverse as global pharmaceutical and chemical firms, world class computer companies, Ivy League universities like Harvard and the University of Pennsylvania, and the U.S. Navy. He has tutored top executives in the effective use of voice and gesture through the Intensive Coaching method and the video-assisted programs he originated. Barone has written extensively on interpersonal effectiveness for national periodicals, trade publications, and training books. He has instructed at the graduate level in training and development and is on the adjunct faculty of Villanova and Harvard Universities. Cari Tellis, Ph.D. Dr. Cari M. Tellis is a licensed and certified speech-language pathologist. Dr. Tellis did her voice training at the University of Pittsburgh Medical Center Voice Center and has clinical experience in acute and long-term acute care hospitals. She has worked with major firms as a corporate speech-language consultant. She consults for a thriving voice therapy practice, Valley ENT, in Kingston, Pennsylvania. Dr. Tellis is an assistant professor in the speech-language pathology department at College Misericordia, where her areas of specialization include voice, laryngeal physiology, laryngeal muscle anatomy and biochemistry, voice and speech science, and counseling. She has authored and co-authored numerous presentations in voice science and fluency at international, national, and state conferences, as well as presented her research at the American Laryngological Association's national conference and published her research in the Annals of Otolaryngology. She is also a reviewer for the Journal of Speech, Language, and Hearing Research.
